The hot to be given up yet, aithough the four men who have been running the team to date have thrown up the sponge. As stated Monday morning in The Bulletin, George P. The players all turned in their suits Monday morning at the Del-Hof and received the salary checks due them, but they were given to understand that they had better hold on a little longer as something might turn up that would enlist hem again under he Norwich cators.

With the two best months in the baseball calendar, July and August, coming, and the team playing better ball and better shaped to play than it has been at any time this season, Mr. Madden considered that he had an attractive proposition to offer and he did some souting for a partner. FINANCIAL AND COMMERCIAL.

ADVANCE IN STOCK PRICES. Effect of Breaking of Drouth in Spring Wheat Region.

New York, July 11.—There were reports that the drouth in the spring wheat region had been relieved by rains. There was an engagement of \$2,000,000 in gold in London for shipment to New York. That and the weekly New York bank statement, published after the stock market closed on Saturday, indicated abundance of money supplies in the local amrket. These were sustaining influences on the price of stocks today, and they advanced in response over the closing level of last week. The speculative tone developed some uncertainty at the higher level of ten market. This was partly due to the sales for the purpose of realizing profits from the buyers at last week's low levels. The break in the London copper market was a more positive weakening factor. The shamp in the London price of coppers was taken seriously by the speculative element in stocks as threatening a reopening of an admittedly weak point in the industrial situation. The price touched was, in itself, a striking demonstration of depression, reaching the lowest quotation for standard copper touched for

uation. The price touched was, in itself a striking demonstration of depression, reaching the lowest quotation for standard copper touched for several years past. The recent heavy exports from this country, which made the bright spot in the June copper producers' statistics, made poor assurance for relief of the conditions of picthora of stocks with such an effect on the receiving markets. The news of the week's reduction in prices of crude steel forms to conform to the lowered price of iron gave the copper news additional influence as an industrial symptom. The weight of this burnien on the general market proved a drag and neutralized the strength of the earlier paft of the day.

The identity of the importer of the gold engaged in London could not be learned. Some of the large international banking houses were candid in expressing criticism of the movement and frank in impugning its motives as designed to stimulate the stock market. The response of the two money markets affected was proof, however, of the forces at work to favor the movement. Foreign exchange here was weak in spite of the gold engagements and fell back to last week's low levels.

Bonds were firm. Total sales, paralue, \$1,529,000. United States bondwere unchanged on call.

New Start Proposed.

When the new nine comes in it is proposed to arrange a new schedule for the last half of the senson and allow all teams to start again on eventerins.

The intimation in The Bulletin that Mayor Dunn was ready to quit was utterly without foundation, as the one man who has been going the trick single handed, with the exception of that thorough sport, Charles Humphrey, has always been and still is ready to stick the season out.

Middletown Willing to Stick.

and that from now on the game will prove a success financially. The trio from Middletown, Messrs. Fisher, Burdick and Bannon, will go to Southington and Bristol Tuesday and line up the situation in that vicinity.

What puzzles the fans most, however, is that Norwich study are large as ever, is that Norwich stuck as long as she did. She has done nothing but "holler" all season, and now pulls out when things begin to look more rosy.

Willimantic, July 11.—While the announcement in Monday's Bulletin, that Norwich had quit as a member of the Nonnecticut Baseball association, was not a surprise to the local sporting fraternity, it set the other members of the association to thinking, and President D. P. Dunn immediately got busy and got Middletown and New London on the wire. A special meeting of the association was called, and in the afternoon shortly after 3 o'clock the following men met at Mayor Dunn's store: Messrs, Fisher and Bannon of Middletown, with Mayor Dunn and a couple of newspaper men.
